Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions (see General Instruction A.2. below):

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

| <b>Title of each class</b>     | <b>Trading Symbol(s)</b> | <b>Name of each exchange on which registered</b> |
|--------------------------------|--------------------------|--|
| Common stock, \$0.01 par value | QEP                      | New York Stock Exchange                          |

Indicate by checkmark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter)

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

## Section 2 – Financial Information

### Item 2.02 Results of Operations and Financial Condition.

On April 29, 2020, QEP Resources, Inc. (the Company) issued a press release to report financial and operating results for the period ended March 31, 2020, and to provide an update to 2020 guidance. A copy of the Company's release is attached hereto as Exhibit 99.1, and the information contained therein is incorporated herein by reference.

The Company's press release announcing its financial results for the period ended March 31, 2020, includes non-GAAP financial measures. Generally, a non-GAAP financial measure is a numerical measure of a company's financial and operating performance that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with United States generally accepted accounting principles, or GAAP. Pursuant to the requirements of Regulation G and Item 10(e)(1)(i) of Regulation S-K, the Company has provided quantitative reconciliations within the press release of the non-GAAP financial measures to the most directly comparable GAAP financial measures (unless there is no directly comparable GAAP financial measure).

The information contained in Item 2.02 to this Form 8-K, including the exhibit, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (Exchange Act), and the information shall not be deemed incorporated by reference into any filing under the Securities Act of 1933, as amended (Securities Act), except to the extent expressly set forth by specific reference in such a filing.

## QEP RESOURCES REPORTS FIRST QUARTER 2020 FINANCIAL AND OPERATING RESULTS AND PROVIDES UPDATE TO 2020 PLAN IN RESPONSE TO CURRENT MARKET CONDITIONS

**DENVER** — April 29, 2020 — QEP Resources, Inc. (NYSE: QEP) (QEP or the Company) today reported first quarter 2020 financial and operating results and provided an update to its 2020 plan in response to current market conditions.

### **Response to Current Market Conditions**

"The novel coronavirus disease (COVID-19) has created unprecedented challenges for our industry, customers and employees. We took swift and decisive action to reduce activity in the face of rapidly deteriorating market conditions, reducing drilling and completion activity across both of the basins in which we operate. These steps prioritize profitability and financial discipline over production growth and help to ensure the business delivers Free Cash Flow, while also preserving liquidity, even at historically low commodity prices in 2020," commented Tim Cutt, President and CEO of QEP.

"We believe the initiatives we have undertaken over the last 18 months to optimize our business, including lowering operating and G&A expense and focusing on Free Cash Flow generation, will enable us to successfully navigate the current environment and emerge as a stronger company. While we realize there is more work to do, we are confident that we are well positioned for success due to our quality of inventory, strong base of production, top-tier cost structure and committed workforce. I would like to acknowledge our entire team for their continued support during these challenging times."

### **Updated 2020 Plan**

#### **Actions Taken:**

- Reduced drilling activity to one rig in the Permian Basin for the remainder of 2020
- Suspended all completion operations in the Permian Basin on March 22, 2020 until at least November 2020
- Ceased refrac and other non-essential operations in the Williston Basin for the remainder of 2020
- Increased remaining 2020 hedge position to 13.1 million barrels of oil at an average price of approximately \$56.50 per barrel
- Established well shut-in strategy to address low margin wells independent of hedge position

#### **Expected 2020 Outcomes:**

- Capital expenditures of approximately \$385.0 million a 32% decrease compared with original 2020 guidance
- Generate at least \$100 million of Free Cash Flow (a non-GAAP measure) at a range of price and shut-in scenarios
- Receive over \$165.0 million in cash alternative minimum tax credit (AMT) refunds in second half of 2020
- Exit 2020 with sufficient cash on the balance sheet to repay 2021 senior notes

### **First Quarter 2020 Highlights**

- Exceeded oil production guidance due to better than forecasted well performance from first tank-style development DSU in County Line
- Lowered lease operating expense by 22% compared with the first quarter 2019
- Reduced general & administrative expense by 75% compared with the first quarter 2019
- Repurchased \$98.2 million in principal amount of senior notes at a discount
- Ended quarter with a \$70.3 million cash balance and no borrowings under credit facility

The Company has posted to its website [www.qepres.com](http://www.qepres.com) a presentation that supplements the information provided in this release.

## OPERATIONS UPDATE

---

For the first quarter 2020, the Company drilled a total of 16 horizontal wells and turned 25 operated wells to production, all in the Permian Basin. The average lateral length for the wells completed in the Permian Basin in the first quarter 2020 was 9,852 feet. The Company also re-completed two wells in the Williston Basin during the quarter.

Oil equivalent production in the Permian Basin was 4.9 million barrels of oil equivalent (MMboe) in the first quarter 2020, an increase of 21% over the first quarter 2019. The increase was a result of putting new wells on production, coupled with improved well performance, which was attributable to changes in well completion design, a supercharged reservoir due to tank-style development, and higher gas capture rates. Total Company oil equivalent production was 7.9 MMboe in the first quarter of 2020, an increase of 2% compared with the first quarter 2019.

Oil and condensate production in the Permian Basin was 3.3 million barrels (MMbbl) in the first quarter 2020, an increase of 14% over the first quarter 2019. Total Company oil and condensate production was 5.2 MMbbl in the first quarter 2020, up 3% compared with the first quarter 2019. The production increase was the result of an increase in volumes in the Permian Basin, partially offset by lower Williston Basin volumes due to reduced activity.

## FINANCIAL UPDATE

---

The Company reported net income of \$367.4 million in the first quarter 2020, or \$1.54 per diluted share, compared with a net loss of \$116.7 million, or \$0.49 per diluted share, in the first quarter 2019. The \$484.1 million increase in net income in the first quarter 2020 compared with 2019 was primarily due to a \$631.6 million increase in realized and unrealized derivative gains, partially offset by a \$178.3 million increase in income tax expense.

Net income (loss) includes non-cash gains and losses associated with the change in the fair value of derivative instruments, gains and losses from asset sales, gains and losses from debt extinguishment, asset impairments and certain other items. Excluding these items, the Company's first quarter 2020 Adjusted Net Income (a non-GAAP measure) was \$48.4 million, or \$0.21 per diluted share, compared with an Adjusted Net Income of \$34.1 million, or \$0.15 per diluted share, in the first quarter 2019.

Adjusted EBITDA for the first quarter 2020 was \$173.9 million compared with \$119.8 million in the first quarter 2019, a 45% increase. The increase was primarily due to \$48.5 million increase in realized derivative gains, a \$47.4 million decrease in general and administrative expenses primarily due to workforce reductions and a \$11.3 million reduction in lease operating expenses, primarily as a result of continuing efforts to reduce operating expenses in both the Permian and Williston basins. The increase in Adjusted EBITDA was partially offset by a \$53.8 million decrease in oil, gas, and NGL sales, primarily due to a 20% decrease in average field-level prices, partially offset by a 21% increase in equivalent production in the Permian Basin.

The definitions and reconciliations of Adjusted Net Income (Loss) and Adjusted EBITDA are provided under the heading Non-GAAP Measures at the end of this release.

### **Capital Investment**

Capital investment, excluding property acquisitions, was \$178.5 million (on an accrual basis) for the first quarter 2020, compared with \$167.2 million for the first quarter 2019, of which \$173.2 million related to the drilling, completion and equipping of wells and \$5.1 million related to midstream infrastructure investment. The increase in capital expenditures was primarily related to an increase in drilling and completion activity in the Permian Basin and recompletion activity in the Williston Basin.

## **Operating Expenses**

During the first quarter 2020, lease operating expense (LOE) was \$40.2 million, a decrease of 22% compared with the first quarter 2019. The decrease in LOE was primarily due to a decrease in maintenance and repair expenses, power and fuel expenses, labor and workovers in the Permian and Williston basins as a result of continuing efforts to reduce operating expenses.

During the first quarter 2020, LOE was \$5.06 per Boe, a decrease of 23% compared with the first quarter 2019 primarily due continuing efforts to reduce operating expenses in both the Permian and Williston basins. During the first quarter 2020, LOE in the Permian Basin was \$3.97 per Boe, a decrease of 33% compared with the first quarter 2019.

During the first quarter 2020, Transportation and Processing Costs were \$13.5 million, an increase of 24% compared with the first quarter 2019. Adjusted Transportation and Processing Costs (a non-GAAP measure) were \$27.8 million, an increase of 13% compared with the first quarter 2019. The increase was primarily due to increased production in the Permian Basin and increased gathering and processing rates in the Williston Basin, partially offset by the Haynesville Divestiture and decreased production in the Williston Basin.

During the first quarter 2020, Transportation and Processing Costs increased by \$0.31 per Boe, or 22%, compared with the first quarter 2019. Adjusted Transportation and Processing Costs increased by \$0.34 per Boe, or 11%, compared with the first quarter 2019, primarily due to increased gathering and processing rates in the Williston Basin, partially offset by the Haynesville Divestiture, which had higher Adjusted Transportation and Processing Costs per Boe.

The definition and reconciliation of Adjusted Transportation and Processing Costs is provided under the heading Non-GAAP Measures at the end of this release.

During the first quarter 2020, general and administrative (G&A) expense was \$15.9 million, a decrease of 75% compared with the first quarter 2019. During the first quarter 2020 and 2019, QEP incurred \$1.4 million and \$26.0 million, respectively, in costs associated with the implementation of our strategic initiatives. Excluding these costs, G&A expense decreased by \$22.8 million, or 61%, primarily due to an \$11.5 million decrease in expense related to the reduction in market value on the deferred compensation plan, an \$8.5 million decrease in labor, benefits and bonus primarily due to our workforce reductions and \$1.5 million decrease in share-based compensation due to the reduction in workforce and the decline in QEP's stock price.

## **Liquidity**

Net Cash Provided by Operating Activities for the first quarter 2020 was \$151.9 million, compared with \$78.3 million for the first quarter 2019.

The Company had a Free Cash Flow outspend of \$31.6 million for the first quarter 2020 compared with Free Cash Flow outspend of \$72.1 million in the first quarter 2019, an improvement of \$40.5 million. The improvement was primarily due to a \$54.1 million increase in Adjusted EBITDA, partially offset by an \$11.3 million increase to accrued property, plant and equipment capital expenditures.

During the first quarter 2020, QEP repurchased, at a discount, \$50.1 million in principal amount of its 6.875% Senior Notes due March 2021, \$34.9 million in principal amount of its 5.375% Senior Notes due October 1, 2022 and \$13.2 million in principal amount of its 5.25% Senior notes due May 1, 2023. These repurchases resulted in a \$25.2 million gain from extinguishment of debt.

As of March 31, 2020, QEP had \$70.3 million in cash and cash equivalents, no borrowings under its revolving credit facility, \$2.9 million in letters of credit and was in compliance with the covenants under its credit agreement. The Company estimates that, as of March 31, 2020, the maximum allowable total debt (sum of senior notes and credit facility) to remain in compliance with the covenants under its credit facility was approximately \$2,175 million. The Company also has a \$165.4 million income tax receivable at March 31, 2020, primarily from accelerated AMT credit refunds that it expects to receive in 2020 due to the Coronavirus Aid, Relief, and Economic Security Act stimulus bill.

The definition and reconciliation of Free Cash Flow is provided under the heading Non-GAAP Measures at the end of this release.

## 2020 Updated Guidance

As a result of current market volatility, the Company's previous 2020 guidance, issued on February 26, 2020, should no longer be relied upon and further guidance, other than capital investment guidance, will be suspended.

|  | 2020              | 2020              |
|--|-------------------|-------------------|
|  | Previous Guidance | Updated Guidance  |
| Capital investment (excluding property acquisitions)       |                   |                   |
| Drilling, Completion and Equipment <sup>(1)</sup>          | \$520.0 - \$565.0 | \$350.0 - \$380.0 |
| Midstream Infrastructure <sup>(2)</sup>                    | \$20.0 - \$25.0   | \$10.0 - \$20.0   |
| Corporate  | \$5.0             | \$5.0             |
| Total capital investment (excluding property acquisitions) | \$545.0 - \$595.0 | \$365.0 - \$405.0 |

<sup>(1)</sup> Drilling, Completion and Equipment includes approximately \$27.0 million of non-operated well costs.

<sup>(2)</sup> Includes capital expenditures in the Permian Basin associated with (i) water sourcing, gathering, recycling and disposal and (ii) crude oil and natural gas gathering system.

The following tables present QEP's volumes and average prices for its open derivative positions as of April 23, 2020:

**First Quarter 2020 Results Conference Call**

---

QEP's management will discuss first quarter 2020 results in a conference call tomorrow, April 30, 2020, beginning at 9:00 a.m. ET. The conference call can be accessed at [www.qepres.com](http://www.qepres.com). You may also participate in the conference call by dialing (877) 869-3847 in the U.S. or Canada and (201) 689-8261 for international calls. A replay of the teleconference will be available on the website immediately after the call through May 30, 2020, or by dialing (877) 660-6853 in the U.S. or Canada and (201) 612-7415 for international calls, and then entering the conference ID #13702333. In addition, QEP's slides for the first quarter 2020 can be found on the Company's website.

## About QEP Resources, Inc.

---

QEP Resources, Inc. (NYSE: QEP) is an independent crude oil and natural gas exploration and production company focused in two regions of the United States: the Southern Region (primarily in Texas) and the Northern Region (primarily in North Dakota). For more information, visit QEP's website at: [www.qepres.com](http://www.qepres.com).

## Forward-Looking Statements

---

This release includes forward-looking statements within the meaning of Section 27(a) of the Securities Act of 1933, as amended, and Section 21(e) of the Securities Exchange Act of 1934, as amended. Forward-looking statements can be identified by words such as “anticipates,” “believes,” “forecasts,” “plans,” “estimates,” “expects,” “should,” “will” or other similar expressions. Such statements are based on management’s current expectations, estimates and projections, which are subject to a wide range of uncertainties and business risks. These forward-looking statements include statements regarding: expectations that the initiatives undertaken by the Company will deliver significant Free Cash Flow, preserve liquidity and the results thereof; reductions in capital expenditures; generation of Free Cash Flow at a range of price and shut-in scenarios; anticipated receipt of AMT refunds under the Coronavirus Aid, Relief, and Economic Security Act stimulus bill; the expectation that the amount of cash on the Company’s balance sheet at the end of 2020 will be sufficient to repay 2021 senior notes; the amount of additional indebtedness QEP could incur and be compliance with loan covenants; allocation of capital investment; and usefulness of non-GAAP measures. Actual results may differ materially from those included in the forward-looking statements due to a number of factors, including, but not limited to: the length and severity of the recent outbreak of the COVID-19 virus and its impact on QEP’s business; changes in oil, gas and NGL prices; liquidity constraints, including those resulting from the cost or unavailability of financing due to debt and equity capital and credit market conditions, changes in QEP’s credit rating, QEP’s compliance with loan covenants, the increasing credit pressure on QEP’s industry or demands for cash collateral by counterparties to derivative and other contracts; market conditions; global geopolitical and macroeconomic factors; the activities of the Organization of Petroleum Exporting Countries and other oil producing countries such as Russia; general economic conditions, including interest rates; changes in local, regional, national and global demand for natural oil, gas and NGL; impact of new laws and regulations, including the use of hydraulic fracture stimulation; impact of U.S. dollar exchange rates on oil, gas and NGL prices; elimination of federal income tax deductions for oil and gas exploration and development; guidance for implementation of the Tax Cuts and Jobs Act; actual proceeds from asset sales; actions of activist shareholders; tariffs on products QEP uses in its operations or on the products QEP sells; drilling results; shortages of oilfield equipment, services and personnel; the availability of storage and refining capacity; operating risks such as unexpected drilling conditions; transportation constraints, including gas and crude oil pipeline takeaway capacity in the Permian Basin; weather conditions; changes in maintenance, service and construction costs; permitting delays; outcome of contingencies such as legal proceedings; inadequate supplies of water and/or lack of water disposal sources; credit worthiness of counterparties to agreements; and the other risks discussed in the Company’s periodic filings with the Securities and Exchange Commission, including the Risk Factors section of the Company’s Annual Report on Form 10-K for the year ended December 31, 2019, as updated by the Risk Factors section of the Company’s Quarterly Report on Form 10-Q for the quarter ended March 31, 2020. QEP Resources undertakes no obligation to publicly correct or update the forward-looking statements in this news release, in other documents, or on the website to reflect future events or circumstances. All such statements are expressly qualified by this cautionary statement.

<sup>(1)</sup> Adjusted transportation and processing costs is a non-GAAP measure. The definition and reconciliation of adjusted transportation and processing costs to transportation and processing costs, as presented, are provided within Non-GAAP Measures at the end of this release.

**QEP RESOURCES, INC.**  
**NON-GAAP MEASURES**  
**(Unaudited)**

**Adjusted EBITDA**

This release contains references to the non-GAAP measure of Adjusted EBITDA. Management defines Adjusted EBITDA as earnings before interest, income taxes, depreciation, depletion and amortization (EBITDA), adjusted to exclude changes in fair value of derivative contracts, exploration expenses, gains and losses from asset sales, impairment, loss from early extinguishment of debt and certain other items. Management uses Adjusted EBITDA to evaluate QEP's financial performance and trends, make operating decisions, and allocate resources. Management believes the measure is useful supplemental information for investors because it eliminates the impact of certain nonrecurring, non-cash and/or other items that management does not consider as indicative of QEP's performance from period to period. QEP's Adjusted EBITDA may be determined or calculated differently than similarly titled measures of other companies in our industry, which would reduce the usefulness of this non-GAAP financial measure when comparing our performance to that of other companies.

Below is a reconciliation of Net Income (Loss) (a GAAP measure) to Adjusted EBITDA. This non-GAAP measure should be considered by the reader in addition to, but not instead of, the financial statements prepared in accordance with GAAP.

## **Free Cash Flow**

This release contains references to non-GAAP measure of Free Cash Flow.

The Company defines Free Cash Flow as Adjusted EBITDA plus non-cash share-based compensation less interest expense, excluding amortization of deferred finance costs, and accrued property, plant and equipment capital expenditures. Management believes that this measure is useful to management and investors for analysis of the Company's ability to pay dividends, repay debt, fund acquisitions or repurchase stock.

Below is a reconciliation of Net Cash Provided by (Used in) Operating Activities (the most comparable GAAP measure) to Free Cash Flow. This non-GAAP measure should be considered by the reader in addition to, but not instead of, the financial statements prepared in accordance with GAAP.

| Interest expense  | 31.6               | 34.0      |
| Unrealized gains (losses) on marketable securities                            | (3.3)              | 1.9       |
| Interest and other (income) expense   | 2.6                | (2.8)     |
| Deferred income taxes   | (195.0)            | 117.9     |
| Income tax provision (benefit)  | 66.3               | (112.0)   |
| Non-cash share-based compensation   | (3.3)              | (8.0)     |
| Changes in operating assets and liabilities                                   | 124.4              | 11.8      |
| Adjusted EBITDA   | 173.9              | 119.8     |
| Non-cash share-based compensation   | 3.3                | 8.0       |
| Interest expense, excluding amortization of debt issuance costs and discounts | (30.3)             | (32.7)    |
| Accrued property, plant and equipment capital expenditures                    | (178.5)            | (167.2)   |
| Free Cash Flow  | \$ (31.6)          | \$ (72.1) |

This release includes a Free Cash Flow estimate for 2020. We are unable, however, to provide a quantitative reconciliation of the forward-looking non-GAAP measure to its most directly comparable forward-looking GAAP measure because management cannot reliably quantify certain of the necessary components of such forward-looking GAAP measure. The reconciling items in future periods could be significant.

## **Adjusted Net Income (Loss)**

This release also contains references to the non-GAAP measure of Adjusted Net Income (Loss). Management defines Adjusted Net Income (Loss) as earnings excluding changes in fair value of derivative contracts, gains and losses from asset sales, impairment and certain other items. Management uses Adjusted Net Income (Loss) to evaluate QEP's financial performance and trends, make operating decisions, and allocate resources. Management believes the measure is useful supplemental information for investors because it eliminates the impact of certain nonrecurring, non-cash and/or other items that management does not consider as indicative of QEP's performance from period to period. QEP's Adjusted Net Income (Loss) may be determined or calculated differently than similarly titled measures of other companies in our industry, which would reduce the usefulness of this non-GAAP financial measure when comparing our performance to that of other companies.

Below is a reconciliation of Net Income (Loss) (the most comparable GAAP measure) to Adjusted Net Income (Loss). This non-GAAP measure should be considered by the reader in addition to, but not instead of, the financial measure prepared in accordance with GAAP.

| Diluted   | 239.1                                    | 237.1      |

<sup>(1)</sup> Income tax impact of adjustments is calculated using QEP's statutory rate of 22.4% and 22.3% for the three months ended March 31, 2020 and 2019, respectively.

### Adjusted Transportation and Processing Costs

This release contains references to the non-GAAP measure of Adjusted Transportation and Processing Costs. Management defines Adjusted Transportation and Processing Costs as transportation and processing costs presented on the Condensed Consolidated Statements of Operations and transportation and processing costs that are included as part of "Oil and condensate, gas and NGL sales" on the Condensed Consolidated Statements of Operations. These costs are added together to reflect the total transportation and processing costs associated with QEP's production. Management believes that Adjusted Transportation and Processing Costs is useful supplemental information for investors as this non-GAAP measure, collectively with the Company's lease operating expenses and production and severance taxes, more completely reflect the Company's total production costs required to operate the wells for the period.

Below is a reconciliation of Adjusted Transportation and Processing Costs to transportation and processing costs as presented on the Condensed Consolidated Statements of Operations (the most comparable GAAP measure). This non-GAAP measure should be considered by the reader in addition to but not instead of, the financial statements prepared in accordance with GAAP.
